Optimal Solutions for the Aftermarket Requirements

Air spring with coated steel piston in the endurance test

The test was aborted after 436 hours and over 5 million load alternation cycles on the durability test bench without any recognizable pattern of defects.

The decision of the testers: The level of life-cycles complies with the requirements of the manufacturer.

Plastic piston

ST steel-Quality

Not to crack

The ST steel piston: A complete system with a piston made of coated steel. Comparison products are equipped with a qualitative simple plastic piston due for economic reasons.

Advantage of the coated steel piston:

- no sensibility of vibration
- no problems of fixation while mounting
- optimal rolling characteristic
- no bursting into pieces at side strokes

Der Einbau von ST Qualität ersatzteilen muß durch Fachpersonal bzw. durch autorisierte Fachwerkstätten unter Einhaltung des vorgegebenen Bestimmungszwecks erfolgen! Original-Ersatzteilnummern dienen lediglich Vergleichszwecken. Sie dürfen nicht in Lieferscheinen und Rechnungen an die Fahrzeughalter oder Wiederverkäufer erscheinen. Installing of ST quality spare parts must be carried out by skilled personnel respectively authorized repair shops while keeping the determined purpose. Original-numbers (OE-numbers) are only meant to be a means of comparison. They must not appear on delivery notes or invoices that are addressed to vehicle owners or resellers.
